## Nature's Balm: 3 Key Ingredients to Look for in a Moisturizer

**Turmeric:** With a variety of skin benefits – from exfoliation to antiaging to improving skin tone – turmeric is a popular ingredient in skin care. Rich in antioxidants and anti-inflammatory, turmeric is known to help with dry skin.

**Kakadu Plum:** Native to Australia, the Kakadu plum is antimicrobial, antibacterial, and full of vitamin C, antioxidants, and nutrients for the skin. It also helps fight inflammation and soothe irritation.

**Blueberries:** Blueberries are packed with antioxidants and vitamins. They aid with collagen production, improving skin tone, preventing acne, and combatting free radicals, inflammation, and sun damage.

### Skin Blends

**Combo Stemtide Hydrating Gel** by Skin Blends contains chronoline and progeline (antiaging messenger peptides), with regenesea, elix-IR, resveratrol, superoxide dismutase, panthenol, and niacinamide, along with Australian super berries and Kakadu plum to hydrate, protect, illuminate, and rejuvenate skin. 877-754-6253 or skinblends.com

### Sorella Apothecary

Ease the appearance of fine lines and fatigue with powerful antioxidants in Sorella Apothecary's **Blueberry Milk Moisturizer**. Aloe, hyaluronic acid, and vitamin C repair the skin leaving it revitalized, while fresh blueberries work as a natural astringent to tighten the skin. 800-253-0450 or sorellaapothecary.com

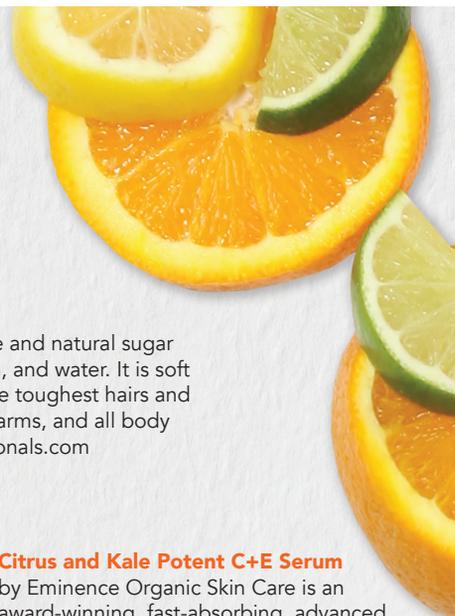

### Hale Cosmeceuticals

Hale Cosmeceuticals has harnessed the skin health-boosting properties of hydrogen in their new product **H2 Rapid Diffusion Therapy Cream**. The formula releases hydrogen that penetrates to the subdermal level of skin, fighting oxidative damage, and repairing skin to reverse the signs of aging. Includes turmeric, with anti-inflammatory and antioxidant hydrogen, and hyaluronic acid for hydration. 800-951-7005 or halecosmeceuticals.com

Helps clients feel invigorated with a burst of citrus from these products!

**Dakine** by Ke Ko is a reliable and natural sugar paste made from sugar, lemon, and water. It is soft but strong enough for even the toughest hairs and is great for Brazilians, underarms, and all body areas. [kekoprofessionals.com](http://kekoprofessionals.com)

**Citrus and Kale Potent C+E Serum**

by Eminence Organic Skin Care is an award-winning, fast-absorbing, advanced serum for all skin types. This potent dose of non-irritating vitamin C is stabilized by botanically-derived, ferulic acid to deliver optimal antioxidant benefits and improve the appearance of skin, making it look more youthful, hydrated, and plump. [eminenceorganics.com](http://eminenceorganics.com)

**Vita C Crème** by TheraGenesis is an antioxidant-rich cream containing age defying peptides and skin conditioning agents. This lightweight moisturizer helps to firm the dermal scaffold, stimulate collagen synthesis, and boost resilience. [theragenessiskincare.com](http://theragenessiskincare.com)

**Citrus Aroma** by Skin Blends is a quick pick-me-up when added to a cleanser, toner, or mask. It can be combined with Skin Blends' Vanilla Aroma or Mint Aroma. [skinblends.com](http://skinblends.com)

BiON Research Skin Care's **Vitamin C + Calcium Complex** provides antioxidants and can protect the body from free radical damage, while rejuvenating aged and photo-damaged skin. The topical calcium provides antiaging benefits and enhances skin cancer protection. Vitamin C is essential for natural collagen production to help fight wrinkles and to ensure evenness of the skin's tone and texture. [bionresearch.com](http://bionresearch.com)

The Somme Institute's **Serum** boosts collagen and lightens discoloration. Vitamin C derived from citrus pulp boasts skin enhancing properties, such as collagen production, and has a proven brightening power to reverse sun damage and discoloration. Using Serum consistently and daily will supply skin's surface with nourished and vibrant skin cells for a luminous complexion. [sommeinstitute.com](http://sommeinstitute.com)
